Strengthening NCD services in Chad: focus on Cancer

Partner: BASE

Country: Chad

Website: [BASE \(base-tchad.org\)](http://base-tchad.org)

Duration: Sep'23 – Dec'25

Activity

Patient Care
HCP Empowerment

Disease area(s) in focus

Oncology

Other stakeholders:

- MOH Cancer Program

Project Overview:

This project aims to support the cancer control strategy in Chad by relying on the pillars of awareness, training of HCP and advocacy

Reach Achieved

- 61 trained CHWs
- 218 trained Nurses/Clinical associates/Midwives
- 130 trained GPs

Outcomes Achieved

Communities are more aware of cancer risks (breast cancer specifically, prevention) and have access to “early” diagnosis

- 36 public awareness & education campaigns with more than 25k people directly reached
- More than 1M views on social media
- More than 3000 women sensitized by CHWs incl. 651 referred for breast & cervix cancer screening

HCPs have improved knowledge, confidence and tools to support Patient

- Post test results have evidenced a significant knowledge improvement for all trainees
