

We chase the *miracles* of science to improve people's lives.

Phnom Penh - Cancer Care Strengthening

Partner: City Cancer Challenge(C/Can)

Country: Cambodia

Website: <https://citycancerchallenge.org>

Duration: Jun'23 – Mar'27

Activity

HCP Empowerment

Disease area(s) in focus

Oncology

Other stakeholders:

- Ministry of Health;
- Calmette Hospital, Kantha Bopha, Laung-Me, Khmer-Soviet Friendship Hospital, National Pediatric Hospital, Japan Heart, Hebron Medical Center, Mercy Medical Center, Orange Cancer Clinic, Expert Clinic, Chakra II Cancer Clinic, Douleurs Sans Frontières.
- Financial: Roche (unrestricted funding to C/Can)

Project Overview:

Strengthen the health system building blocks in Phnom Penh (Cambodia), to achieve improved access to quality cancer care

Outcomes expected

Through the implementation of C/Can's City Engagement Process Framework (CEPF), the project supports Phnom Penh in assessing its cancer care landscape, identifying priority gaps, and co-developing and implementing evidence-based, locally adapted solutions.

By embedding sustainability and local ownership throughout the process, this initiative aims to build a scalable model for cancer care improvement in Cambodia.
