

We chase the *miracles* of science to improve people's lives.

MediFIKIA

Growth Accelerator for Integrated NCD Service (GAINS)

Partner: TOUCH HEALTH

Country: Tanzania

Website: [Touch Health](https://touchhealth.org)

Duration: Dec'22 – Dec'26

Activity:

Patient Care
HCP Empowerment
Treatment and Value Chain

Disease focus:

Diabetes
Cardio

Other Stakeholders:

- Ministry of Health Tanzania,
- Tanzania Diabetes Association

Project Overview:

The primary goal is to improve supply chain management for NCD medicines and patient tracking at each facility to ensure patients are adherent to treatment.

The Extension phase (2025-2026) aims at extending capacity building in additional districts aligned to the MOH CHW program. The project is linked to the CEORT activities in Tanzania.

Outcomes Expected:

*Patients have easy **access** to **medicines** required*

*Medicines are consistently **available***

*NCD Services and support are **easily accessible** to patients*

*Patients have improved **knowledge and confidence** to self - manage their condition*

*HCPs have improved **knowledge, confidence and tools** to support Patients*

Targeted Reach

- 53 Supply Chain Partners/Health Care Facilities engaged
- 2100 patients enrolled in a sponsored NCD care program (CV/Diabetes)
- 1000 CHWs trained
