

We chase the *miracles* of science to improve people's lives.

MediFIKIA

Partner: TOUCH HEALTH
Country: Tanzania
Website: [Touch Health](#)
Duration: Dec'22 – Dec'26

Activity:

Patient Care
HCP Empowerment
Treatment and Value Chain

Disease focus:

Diabetes
Cardio

Other Stakeholders:

- Ministry of Health Tanzania,
- Tanzania Diabetes Association

Project Overview:

The primary goal is to improve supply chain management for NCD medicines and patient tracking at each facility to ensure patients are adherent to treatment.

Targeted Reach

- 38 Supply Chain Partners/Health Care Facilities engaged
- 2100 patients enrolled in a sponsored NCD care program (CV/Diabetes)

Outcomes Expected:

*Patients have easy **access** to **medicines** required*

*Medicines are consistently **available***

*NCD Services and support are **easily accessible** to patients*

*Patients have improved **knowledge and confidence** to self - manage their condition*

***HCPs** have improved **knowledge, confidence and tools** to support Patients*
