Country: Togo

Website: [Home - Global Communities](#)

Duration: Dec'24 – Jul'26

Activity

Patient Care
HCP Empowerment

Disease area(s) in focus

Diabetes
Cardio

Other stakeholders:

- MOH NCD Program

Project Overview:

The objective of the CARE4CVD program is to improve access to quality prevention, care and treatment of cardiovascular diseases in Togo. This involves an analysis of the landscape of the NCDs in the country, the capacity building of the HCPs and awareness among population

Targeted Reach

- 5,000 people made aware & screened for Diabetes/CV
- 1370 patients diagnosed (CV)
- 245 patients diagnosed (Diabetes)
- 150 trained CHWs
- 400 trained Nurses
- 70 trained GPs
- 30 trained Specialists

Outcomes Expected

Communities are more aware of NCD risks, prevention and have access to "early" diagnosis

NCD Services and support are easily accessible to patients

Patients have improved knowledge and confidence to self - manage their condition

HCPs have improved knowledge, confidence and tools to support Patient
