Duration: Nov'24 – Jun'26

Activity

Treatment and Value Chain
Patient Care
HCP Empowerment

Disease Area(s)

Diabetes
Cardio

Other stakeholders

- none

Project Overview

The main objective of this project is to support pharmacies on a daily basis in the management of NCDs:

1. Identify and evaluate educational content needs from pharmacists
2. Based on the diagnostic, develop the required technologies/features
3. Broadcast prevention campaigns through Meditect's software to improve the treatment of NCDs in hard to reach countries

Targeted Reach

- 250 Supply Chain partners (Pharmacies) engaged
- 50,000 people made aware
- 500 Pharmacists trained

Number of Pharmacies engaged	250
CHAD	70
BENIN	60
GUINEA	80
TOGO	40

Outcomes Expected

Patients have easy access to medicines required

Medicines are consistently available

Communities are more aware of NCD risks, prevention and have access to "early" diagnosis

NCD Services and support are easily accessible to patients

HCPs have improved knowledge, confidence and tools to support Patient
