

We chase the *miracles* of science to improve people's lives.

Breast Health Community Education

Partner: THET

Country: Uganda, Zambia

Website: [THET - Working in partnership to support health workers across the world](#)

Activity:

HCP Empowerment

Disease focus:

Oncology

Others Stakeholders:

- Association of Breast Surgery, UK; Blended Learning UK
- Uganda Cancer Institute, Cancer Disease Hospital Lusaka

Project Overview:

HCP capacity building:

- A training package & mentorship framework developed and locally contextualized.
- Establishment of sustainable breast cancer knowledge and training cascade.
- Increased awareness and early detection activities.

Expected short-mid term outcomes:

- Communities are more aware of NCD risks, prevention and have access to early diagnosis
- HCPs have improved knowledge, confidence and tools to support Patient
