Mobilizing Community Health Workers for screening and follow-up of NCD patients

Partner: TANZANIA DIABETES ASSOCIATION

Country: Tanzania

Website: [Tanzania Diabetes Association - Support needy people living with diabetes \(tdatz.or.tz\)](http://Tanzania Diabetes Association - Support needy people living with diabetes (tdatz.or.tz))

Duration: Feb'24 – Mar'26

Activity

Patient Care
HCP Empowerment

Disease area(s) in focus

Diabetes
Cardio

Other stakeholders:

None

Project Overview:

Exploration of the effectiveness of use of CHWs in community follow-up of people with risk factors for Diabetes & Hypertension

Targeted Reach

- 8700 people made aware & screened for Diabetes/CV
- 2361 patients diagnosed (CV)
- 770 patients diagnosed (Diabetes)
- 783 patients linked to care
- 20 trained CHWs

Outcomes Expected

Communities are more aware of NCD risks, prevention and have access to "early" diagnosis

NCD Services and support are easily accessible to patients

Patients have improved knowledge and confidence to self - manage their condition
