BITEHO: Improvement of diabetes care and management in Burundi through capacity building, management and awareness

Partner: VHA

Country: Burundi

Website: www.vh-a.org

Duration: Dec'24 – Dec'26

Activity:

Patient Care
HCP Empowerment

Disease Area of focus

Diabetes

Project Overview:

This project aims at:

Strengthening the capacities of health care providers (HCPs) and community health workers (CHWs) in diabetes care

Improving awareness, diagnosis and care services for patients with diabetes

Targeted Reach

- 100,000 people made aware
- 10,000 people screened
- 1,000 patients diagnosed
- 500 patients linked to care
- 600 trained CHWs
- 300 trained Nurses
- 40 trained GPs

Outcomes Expected

Communities are more aware of NCD risks, prevention and have access to "early" diagnosis

Patients have improved knowledge and confidence to self-manage their condition

HCPs have improved knowledge, confidence and tools to support Patient
