

We chase the *miracles* of science to improve people's lives.

Integrated Hypertension and Diabetes Service Delivery Intervention

Partner: PATH

Country: Sierra Leone

Website: [Better health moves humanity forward | PATH](#)

Duration: Oct'24 – Dec'26

Activity:

Patient Care
HCP Empowerment

Disease area(s) in focus

Diabetes
Cardio

Other Stakeholders:

- Ministry of Health
- Sierra Leone Medical and Dental Association

Project Overview

A two-year integrated program with an overarching goal of improving HTN and DM detection and management by increasing coverage and reach of services through capacity building and demand for care through community-based awareness-raising

Targeted Reach

- 40 health care workers trained and receive supportive supervision
- 68,000 community members screened for HTN, DM or both
- ~15,000 people referred to next level of care for Diagnosis

Outcomes expected

Communities are more aware of NCD risks, prevention and have access to "early" diagnosis

NCD Services and support are easily accessible to patients

HCPs have improved knowledge, confidence and tools to support Patient
