 Churches Health Association of Zambia

<b>Partner:</b>	The Churches Health Association of Zambia (CHAZ)
<b>Country:</b>	Zambia
<b>Website:</b>	<a href="http://chaz.org.zm">Churches Health Association of Zambia (chaz.org.zm)</a>

### Activity:

Patient Care  
HCP Empowerment

### Disease focus:

Diabetes  
Cardio

### Others Stakeholders:

- Ministry of Health, Zambia

## Project Overview:

The primary goal of the NCDs Prevention and Control Project is to institutionalize NCDs Prevention WHO Best Buys as a standard of care within the Church Health Institutions participating in the project. The specific goal of the project is to prioritize NCD prevention and control at the Church Health Institution and community levels.

It encompasses the following dimensions:

-Build the capacity of Health Workers and Community Educators in Church Health Institutions on Diabetes and Hypertension Prevention and Management;

-Raise awareness on common NCDs Risk factors, namely tobacco use, harmful use of alcohol, unhealthy diet, physical inactivity, high body mass index or raised lipid levels.

-Provide Diabetes and Hypertension diagnostic and treatment services in the selected Church Health Institutions.

Faith-based organization partnering with gov/  
Management of patients with Diabetes and HT  
Treatment provided through the public health facilities.

### Targeted Reach

- **206642** people reached with awareness messages
- **121979** of People screened
- **25312** of patients diagnosed (CV/Diabetes)
- **100** trained Community Educators
- **50** trained Pharmacists

## Outcomes Expected:

*Communities are more **aware** of NCD risks, prevention and have access to "**early**" diagnosis*

*Patients have improved **knowledge and confidence** to self - manage their condition*

*HCPs have improved **knowledge, confidence and tools** to support Patient*
