

We chase the *miracles* of science to improve people's lives.

## PANACEIA-HHD

**Partner:** Grants Management Office of the Faculty of Medicine at Universidade Eduardo Mondlane

**Country:** Mozambique

**Website:** [Universidade Eduardo Mondlane – Graduação, Pós-graduação, Extensão e Inovação \(uem.mz\)](http://www.uem.mz)

**Duration:** Dec'24 – Dec'26

### *Activity:*

Patient Care  
HCP Empowerment

### *Disease area(s) in focus*

Diabetes  
Cardio

### *Other Stakeholders:*

- Ministry of Health
- Universidade Eduardo Mondlane

### *Project Overview:*

The ProgrAm of Nurse-led African-specific Comorbidities Enhancing Integrated CAre for HIV, Hypertension and Diabetes (PANACEIA-HHD) is a comprehensive program that leverages health system's strengthening efforts to provide care for cardiometabolic syndrome in people living with HIV (PLHIV). Particularly focusing on Hypertension (HTN) and Diabetes (DM), it aims at addressing poor outcomes associated with these comorbidities

### **Targeted Reach**

200 Patients (initially seen in and/or discharged from the hospital, who were admitted for uncontrolled/complicated HTN/DM) are followed-up and educated

120 CHW/Peer Educators trained

420 Mid-level providers trained

90 Doctors/residents trained

### *Outcomes Expected:*

*Patients have improved knowledge and confidence to self - manage their condition*

*HCPs have improved knowledge, confidence and tools to support Patient*
