

We chase the *miracles* of science to improve people's lives.

## MediFIKIA

### Growth Accelerator for Integrated NCD Service (GAINS)

- Partner:* TOUCH HEALTH
- Country:* Tanzania
- Website:* [Touch Health](#)
- Duration:* Dec'22 – Dec'26

#### *Activity:*

Patient Care  
HCP Empowerment  
Treatment and Value Chain

#### *Disease focus:*

Diabetes  
Cardio

#### *Other Stakeholders:*

- Ministry of Health Tanzania,
- Tanzania Diabetes Association

#### *Project Overview:*

The primary goal is to improve supply chain management for NCD medicines and patient tracking at each facility to ensure patients are adherent to treatment.

The Extension phase (2025-2026) aims at extending capacity building in additional districts aligned to the MOH CHW program. The project is linked to the CEORT activities in Tanzania.

#### **Targeted Reach**

- 53 Supply Chain Partners/Health Care Facilities engaged
- 2100 patients enrolled in a sponsored NCD care program (CV/Diabetes)
- 1000 CHWs trained

#### *Outcomes Expected:*

*Patients have easy **access** to **medicines** required*

*Medicines are consistently **available***

*NCD Services and support are **easily accessible** to patients*

*Patients have improved **knowledge and confidence** to self - manage their condition*

*HCPs have improved **knowledge, confidence and tools** to support Patients*
