Integrated Health Systems Interventions to Tackle NCDs

Partner Integrity Action

Country: Tajikistan

Website [Integrity Action - citizen monitoring using tech for development](#)

Duration Nov'25-Jun'27

Activity

Patient Care
HCP Empowerment

Disease areas of focus

Cardio & Diabetes

Other Stakeholders

- PPHF
- NGM
- NCD Association
- MOH

Project Overview

This project intends to facilitate integration of innovative health systems interventions in Tajikistan to combat NCDs through community mobilization, capacity building, and strengthening health systems. The objective is to improve the accessibility, affordability, and quality of NCD services and treatments, while also ensuring that everyone has access to essential NCD care.

Targeted Reach:

30,000 People Screened
~9,000 Patients diagnosed
~5,400 Patients with improved treatment coverage
450 HCPs & CHWs trained

Outcomes expected

Medicines are consistently available

Communities are more aware of NCD risks, prevention and have access to "early" diagnosis

NCD Services and support are easily accessible to patients

Patients have improved knowledge and confidence to self-manage their condition

HCPs have improved knowledge, confidence, network and tools to support Patient
